**Your Name:**

**Team Name:**

**Note: This evaluation form is confidential. Your responses and comments will *not* be made available to the other group members or any other member of the class.**

**A.** In the **table** below, please rate each group member (you can also rate yourself but this is *optional*) in terms his/her contribution to the completion of group assignments (two required cases & class discussions, optional case, and the case/term project), **using the following scale:**

**4 *Excellent Contributor:*** The member has contributed a significant amount to all of the assignments. Without his/her input, the quality of the submitted work would have been considerably diminished.

**3 *Good Contributor:*** The member has exerted some effort. Without his/her input, the quality of the submitted work would have been somewhat diminished.

**2 *Marginal Contributor:*** The member has barely contributed to the assignments. Without his/her input, the quality of the submitted work would have been more or less the same.

**1 *Unsatisfactory Contributor:*** The member has failed to contribute in any meaningful way to the assignments. Other members of the group had to do a lot more work because of this member's performance. Without this member, the quality of the submitted work may actually have been improved.

**DK *Don't Know:*** I don't have enough information about the member's effort/performance to assess his/her contribution reliably.

**B. Please feel free to provide any additional comments on the back of this form. In particular, explain any significant differences in your evaluations on the contributions of your team members.**
